

EXTENSION, REVITALIZATION & MENTORING

Volume 1 June 2024

School of
Instruction

There will be a quiz
game with prizes, so
make sure you
Visit the Mentoring
booth!

Green Light, Yellow Light, Red Light- What color is your Auxiliary?

We are starting an exciting new year with new beginnings! All your Officers should have been installed and the Installation report submitted in Malta. The newly elected officers are busy reading their Podium book learning about their duties and obligations. Does this sound like your Auxiliary, I hope so! Are all the offices filled, or are the same people holding the same positions from years before?

Under Malta member resources, there are 7 resources in the Healthy Auxiliary Tool Kit. They help to determine if you are a healthy Auxiliary. **Green Light** Auxiliaries are healthy auxiliaries.

If your having trouble recruiting new members, there are very few reports of your programs worked, the officers have held the same position numerous years, you should be asking the Department for help. These are some of the caution signs or **Yellow Light** indicators! This the time to take action and help resolve the issues and will require openness and honesty.

Red Light is when an Auxiliary is placed on suspension! Please reach out to the Department President or Chief of Staff before you get to Red!

Mentoring for the Future!

It's an exciting time of the year, awards are being given out for all your hard work! The new slate of officers are busy planning out all the activities to help Veterans and our communities.

Presidents please make sure that you have a member that will sit with the new members at the meetings to help them understand what is happening, raps, parade rest etc.. This person should be friendly and well versed in the working of our Organization. Please bear in mind that tenure doesn't always equate to knowledge when picking this individual.

Encourage your new members to start attending the meetings, including the District and Department level. IT's a great place to learn, network and develop new friendships. Most importantly when the new members come into your meeting, make sure you listen to their thoughts and ideas. Please avoid these 2 lines-

- *WE tried that before and it didn't work*
- *This the way we have always done this*

New ideas or new twists on an older idea can create fantastic results. This is how new inventions are formed. *Let's give it a try!*

***Mentorship is the Key to Extraordinary
Success!***
