

NATIONAL PRESIDENT AND COMMANDER IN CHIEF'S JOINT SPECIAL PROJECT

**A donation for this project IS a requirement for the
Circle of Champions**

National President Donna Mills and VFW National Commander in Chief have chosen “Operation Bring Them Home” as their joint Special Project. “Operation Bring Them Home” is the title chosen by the DPPA (Defense POW/MIA Accounting Agency). This Department of Defense Agency works to “return ALL of our Heroes to their Families and bring them home with Honor”. They work to account for and repatriate U.S. Service Members who are or were Prisoners of War or Missing in Action from past conflicts.

“Operation Bring Them Home” uses a combination of historical research, recovery operations, and forensic science, including analyzing DNA, to identify remains and bring them home to their loved ones. The DNA collection also includes collecting samples from surviving Family Members to better identify missing loved ones.

Supporting this project is reportable under Veterans and Family Support.

**As the National President and National Commander in Chief stated,
“Helping this organization means helping families find peace”.**

ALL DONATIONS MUST BE MADE ON MALTA
